

Inventory Rail Supervisor

Responsibilities

- Supervisory role for a team of logistics and inventory specialists. This position will require collaboration with cross-functional teams to ensure seamless logistical operations and being a liaison to customers.
- Focus on external communications (customers/all Railroads) and support the team's coordination for the en-route pipeline of railcars/trucks.
- Develop and maintain positive customer relationships by providing creative solutions.
- Manage customer nomination processes, and inventories, collect order fill data, and send weekly order inventory reports to customers that track their product movements.
- Review Sawtooth performance with customers against nomination targets or benchmarks.
- Liaison with Business Development and customers on customer nominations/allocations or en-route pipeline issues.
- Follow all company procedures related to inventory control or other areas that affect inventory, as well as report any deviations or Inventory issues that may occur.
- Analyze inventory data to identify opportunities for cost savings and process improvements.
- Manage all BOLs from beginning to end, ensuring accuracy and consistent customer communication throughout entire process.

Qualifications

- Previous rail and petroleum logistics experience is a plus. (crude oil, NGLs, Refined Products).
- Strong understanding of rail operations and inventory control principles.
- Excellent verbal, written, and interpersonal communication skills.
- Strong analytical and problem-solving skills.
- Previous experience in a supervisory or leadership role is preferred.
- Proficient in Microsoft Office products (Excel/Word/Outlook).
- Familiarity with Transportation Management Systems or other 3rd Party logistics services.

Experience/Education:

- 2+ years' work experience in the industry preferred.
- High school diploma is required.
- Bachelor's degree preferred; equivalent experience will be considered.

This position is located at our terminal in Delta, Utah, and is a full-time onsite position.
